A CATALOGUE

OF

TREES AND PLANTS

CULTIVATED AND FOR SALE BY

W. C. STRONG,

AT THE

Nonantum Hill Nursery,

BRIGHTON, MASS.

Horse-Cars marked "Brighton" leave Bowdoin Square, Boston, every half hour.
The Terminus of the Railway is directly opposite the Greenhouses.

COMPETENT AND EXPERIENCED PERSONS WILL BE RECOMMENDED TO GENTLEMEN
WHO WISH EITHER PRACTICAL OR ORNAMENTAL GARDENING. PLANS
FURNISHED FOR LAYING OUT OF GROUNDS, AND ADVICE
GIVEN AS TO DRAINAGE AND GENERAL
MANAGEMENT.

Packages delivered at any Express or Railroad Depot in Boston without
expense.

BOSTON:
PRINTED BY GEO. C. RAND & AVERY,
No. 3 Cornhill.
1860.

In publishing this Catalogue I have endeavored to name only such Plants as can be furnished, and are in every respect worthy of cultivation. The utmost care is used in the propagation of genuine sorts, and the stock this year is of superior quality. Orders sent by mail will be executed with special care, and when the selection of varieties is left to my judgment, none but the best shall be sent. When trees of extra size are wanted a corresponding price will be charged. Large orders will receive a liberal discount. All trees will be duly labelled, and carefully packed, so as to be sent to any part of the country, with perfect safety. The cost of packing will be charged.

UNKNOWN CORRESPONDENTS MUST INVARIABLY accompany their order with a remittance, or satisfactory reference.

Having about seventy acres of land, admirably adapted to the cultivation of trees, it will be my aim so to gain the public confidence as to increase my trade, and give the Nurseries an enduring reputation. The Stock is already the largest and most complete of any in New England, and additions of new varieties will be sought for, as they appear, in Europe and America. Many novelties, not included in the Catalogue, are in the course of propagation.

Pledging every endeavor to satisfy those who are in want of Trees, I would respectfully solicit orders. Address

W. C. STRONG,

Nonantum Hill, Brighton, Mass.

THE GARDENER'S MONTHLY.

Those of our readers desiring information on any horticultural topics are referred to this illustrated Magazine, published at 23 North Sixth Street, Philadelphia, Pa. It is edited by Thomas Meehan, Esq., and published at the low price of one dollar a year. In amount of practical and reliable horticultural information we believe it has no equal, either in this or foreign countries, and we think we do a public service in this voluntary recommendation of it.

Fruit Trees.

APPLES.

Dwarf Box.

For edging, very fine, at twenty-five cents per yard.

Myatt's Linnæus Rhubarb (the best), at thirty-seven and a half cents.

ROSES.

Special attention has been given to the cultivation of this Queen of Flowers. Many varieties are not enumerated, but the best in every class can be furnished. They are cultivated both on their own roots and on the Manetti. When worked low, and on the true Manetti, with proper culture, they show very little tendency to sucker, and make much more vigorous growth and bloom, and are confidently recommended as giving superior flowers to those on their own roots. When the selection is left with me none but the best will be sent. A liberal discount will be made on large orders.

Hardy Perpetuals.

Price 50 cents. Varieties noted by a * are 75 cents.

Adelaide Fontaine, Large, fine, well formed, pink.	Caroline de Sansal, Large, fine, beautiful flesh color.

Verbenas.

All the new kinds are proved, but only those worthy of culture are retained. The list now containing about sixty varieties. Where discretionary orders are given the selection may be relied upon as superior, and will include such as Mrs. Holford, Mrs. Woodruff, Geant des Batailles, Lady Palmerston, Purple King, &c. Price, \$1 per dozen. Also, seedling Verbena Cambridge Belle. This variety, raised by Mr. Walsh, gardener to G. G. Hubbard, Esq., received the Silver Medal of the Mass. Horticultural Society, as the best seedling for the year 1859. Color carmine red, fine large flower, fine truss. Also, Columbia and Rosetta, two superior new seedlings raised by Mr. Walsh. Price for the three 50 cents.

- Chrysanthemums.** Pompons and large flowering, a fine collection, \$2 per dozen.
- Mimulus.** Twelve best named varieties, at \$2.

HOLLYHOCKS.

The improvements in hybridizing the Hollyhock have made it, within a few years, the most conspicuous and gorgeous of plants; as double as the Dahlia, with immense spikes, crowded with bloom in every variety of color. Seen from a distance it is, beyond comparison, the most showy of all plants. The following are most superb varieties, \$3 to \$4 per dozen.

Celestial, clear, beautiful blush, very full and perfect shape.	Pourpre de Tyre, rich purple, close spike
Comet, rich crimson, fine	Purple Defiance, good form and substance
Elegans, white, with dark base	Purple Perfection, light purple, distinct
Enchantress major, rosy crimson	Purpurea, purple, good spike
Eva, beautiful, peach	Raphael, blush, dark base
Hon. Mrs. Ashley, lilac, fine spikes	Rosea Grandiflora, rose
Isaac Walton, bluish gray	Rosy Morn, large, fine form, bright rose
King of Roses, rosy pink	Rosy Queen, rosy blush
Magnifica, deep rose	Solfaterre, fine yellow
Marquis of Dalhouse, claret	Sir Robert Peel, crimson, fine
Miss Nightingale, primrose, full spike	Spectabilis, salmon
Ophir, lemon	Unique, beautiful rich carmine, distinct
Prince Albert, scarlet crimson	Venosa, blush, marbled, fine

NEW CHOICE PLANTS.

New Bedding Geranium, Pride of the Parlor. A seedling raised by Prof. Charles G. Page, of Washington, D. C., from whom the entire stock has been purchased. Prof. Page describes it as "the best of all scarlet Zonales, and having the largest truss known." "The truss is noble, the shape of the flower perfect, and the habit of the plant all that could be desired, and a remarkably free bloomer." The growth of the plant is very compact, naturally forming perfect specimens; the foliage is finely and very distinctly horseshoe-marked, trusses of flowers very abundant and remarkably large, each flower being perfect in shape, of great substance, and of vermilion scarlet color. Price, 75 cents.

Variegated Daisy. This beautiful seedling has a fine, large, bright rose flower, with remarkably beautiful variegated foliage, much resembling the *Acuba Japonica*. Leaves large, glossy, and of great substance. The flower is fully equal to any other variety, but its marked foliage will be its chief attraction, even when the plant is in flower. It is a decided acquisition. Price, 50 cents.

Tritoma Uvaria. A most desirable plant for the open border or forcing. Its curious foliage is very ornamental and its whorled spike of flowers, rising on a three-foot stem, is very conspicuous. Having exhibited it in August, 1859, before the Mass. Horticultural Society, the committee report upon it as follows: "A most remarkable and very showy plant, . . . every way desirable, and a great acquisition." The flower spike is nearly a foot in length, commencing to open from the bottom, and continuing in bloom for two or three weeks. Color of the buds and flower a dark red shading to yellow. Price, 75 cents.

Bourbon Rose, George Peabody. A seedling raised by Mr. Pentland, of Baltimore. It is a remarkably free flowering and vigorous variety, and I should judge, from the experience of one summer, it is unsurpassed, if equalled, as a bedding Rose. Color rich dark purple, striped with crimson. Price, \$1.50.

Variegated Negundo Maple. The Negundo is one of the most popular varieties of Maple, being a tree of rapid, symmetrical, clean growth, and very distinct foliage. This new variegated kind is a very distinct sport, with silvery white leaves, spattered with deep green. No other hardy tree approaches it in the healthy, lively appearance of its variegation. Price, \$2.
